

PSU/SERC Aquatic Bioinvasion Research and Policy Institute

Faculty

- Mark Sytsma, Catherine deRivera, Greg Ruiz, Ian Davidson

Research

- Role of biotic and abiotic factors on distribution and impact of non-native marine species
- Modeling invasions / climate change
- Latitudinal differences in invasive species richness (focus on sessile inverts using fouling plates)
- Vector Management and Policy
 - Ballast water
 - Hull fouling on commercial vessels, fishing vessels, and recreational vessels
