Irem Tumer, Vice President for Research and Innovation

The Provost and Executive President and Vice President for Finance and Administration charge the Infrastructure Working Group.

The IWG:

- Serves as an advisory body to the Provost, the Vice President for Finance and Administration, and the University Infrastructure and Operations unit;
- Provides advice on infrastructure needs and priorities, including new and renovated facilities, core services improvements (electrical, heating/cooling, telecommunications, and IT infrastructure), and space utilization;
- Develops and executes transparent processes for the vetting and prioritization of infrastructure investments, recommends priorities to university leadership, and assists in the communication of vetting and priority-setting processes to university stakeholders.
