Faculty Feedback: Syllabus Statement

The statement below may be used on syllabi, as an announcement on Canvas, or as an email to students:

[This course] is participating in an initiative to connect students with university resources in a timely manner. The goal of this effort is to help students be successful by offering support when attendance, performance, or life concerns arise. If a referral is submitted on your behalf, you will receive an email letting you know and identifying the office that will reach out to you. Should you receive notification of a resource referral, please treat the message with attention. I am trying to help you connect with resources because I would like to see you be successful. Finally, if you are experiencing difficulty of any type, I encourage you to visit this informational website: https://counseling.oregonstate.edu/reach-out-success.
